120 6.25 logs-Notwithstanding the increase in receipts of hogs, the market opened with a little more apimation in the bidding from all buyers than baracterized the trade at the start yesterday. Salesmen were also favored by reports from other places, and an early arrangement of terms was made. There was a very fair demand from ippers for the good light hogs and equally as pigs, \$5.10. od a demand from packers for the medium to heavy grades, so that there was an outlet for all kinds. And salesmen succeeded in advancing prices about 10c for an average as compared with yesterday. The ordinary light hogs weighstrength as others, but a prompt clearance of the morning receipts was made. There was not a large number of hogs in late—in fact, hardly enough to effect the market in any way. The COFFEE MARKET BREAKS

close was steady. The extreme range in prices was from \$4.65 to \$5.15, and most of the supply sold at \$4.85@5.10. Quotations: Good to choice medium to heavy \$5.00 95.11 Mixed and heavy packing...... 4.75@5.@ Good to choice light weights..... 4.80@4.95 Common to fair light weights..... 4.65494.75 aferior to best pigs .. 4.00@4.70

Sheep-There was a good increase in the reof sheep and lambs to-day, and the supby was the largest since Jan. 30. For the first ime recently there were enough to invite all buyers into the market. On account of less fadevelopments elsewhere the demands from shippers were not important, and they were offering considerably lower prices. There was a very fair demand from local butchers, but on account of the limited competition they were also bidding lower, and salesmen were finally forced to accept 10c to 15c less than resterday, and oc casional sales were considered right around 25c lower than a few odd bunches have sold the past few days. After a trading basis had been stablished salesmen succeeded in making a very air clearnance, and closing sales did not repsent any further change in prices. Most of offerings were lambs that sold at \$5,75@5.90. common kinds sold as low as \$5. The best

sa sp were salable around \$3.50, with yearlings 54. and common to fair sheep were quoted at \$2.50@3.25. Quotations: Good to choice lambs .. Common to medium lambs..... common to best yearlings .. IMPROVEMENT IN CATTLE With the Grain Brokers; Present Market Conditions

high point close Tuesday, at its high point for the session, and left off 1%c higher than the previous day's closing figure. But the corn pits ** Attle-There was considerable improvement is getting to be an old thing. In the corn pits it is something comparatively new. May corn receipts of cattle to-day over yesterday's went to 54%c, 4%c higher than a flat advance of 4%c over the close Tuesday. The July was sented than for several days past, and in hearly the previous day's closing figure. These are new all departments cattle of a higher grade than high prices for both the May and July. Armour from other places were rather favorable, and to show the effects of the Armour buying. And the market opened with salesmen holding their | yesterday corn was as wild a market as was consignments at strong to higher prices. There wheat when Armour boosted it up a few weeks was a very fair demand, but it appeared that of corn Armone has been amount the supply was large enough to meet all the that he has accumulated a pretty good-sized line. He bought a good deal last week when the prices sagged off. Most of this buying was posed to paying higher prices. They seemed will- through commission houses. There was a pretty ing, however, to trade on a basis of strong prices general opinion at that time that the buying was for Eastern interests.

The local cash wheat market went ic closer. to the dollar mark yesterday, the bid for No. 2 red winter advancing to 97c. Nothing was sold in store have been decreasing steadily for some time. The Board of Trade's inspection report In quality or condition did not show as much | yesterday did not show a single car of wheat. strength as others, and in a general way were Board of Trade's inspection reports, amounted reported only about steady. Representative sales to less than 4,000 bushels. Farmers never sell tion, but it certainly is true that those conwill show prices in several departments above grain on an advancing market. This is history,

There is now 9,000,000 bushels less wheat at Chicago, Minneapolis, Duluth and in the Northa fair demand for feeding cattle and sales did | western country elevators than in February, not represent any quotable change in prices. 1898. That was the Leiter year. The North-The buil market was steady and calves were | western country elevator wheat stocks, 5,936,000 also about steady at yesterday's decline in ary. These total stocks, the Minneapolis, Duluth, Chicago and the Northwestern country elevators, are now 24,693,000 bushels, compared with 33,134,000 bushels last year, 43,644,900 bushels grain over a considerable portion of the winter steady. 52,932,000 bushels February, 1900.

Patten is not going to be contented with sewported as a large buyer of May oats in Minne- as regards drought. There has been so far in 98c; May, 87%c; July, 81%c; No. 2 hard, 831/40 apolls, which established trading in oats futures a short time ago. The advance to 45%@45%c tion of live stock there on this account has been to 15%@45%c tion of live stock there on this account has been to 15% @45%c tion of live stock there on this account has been to 15% @45%c tion of live stock there on this account has been to 15% @45%c tion of live stock there on this account has been to 15% @45%c tion of live stock there on this account has been to 15% @45%c tion to 15% for May oats was a gain of 114@11%c for the low point of November. Whether or not the big holder was willing to take profits on part of his line at this figure and ease the minds of the shorts was an open question in the pit.

In the destruction, The destruction of the usual rathrall. The destruction of his account has been great, and if relief does not come between now and the end of the rainy season, that is, on April 1, the accustomed aids to the productivity of the soil during the summer from irrigation will not be possible and the research for the spectral distribution. The destruction of live stock there on this account has been great, and if relief does not come between now and the end of the rainy season, that is, on April 1, the accustomed aids to the productivity of the soil during the summer from irrigation will not be possible and the estruction of live stock there on this account has been great, and if relief does not come between now and the end of the rainy season, that is, on April 1, the accustomed aids to the productivity of the soil during the summer from irrigation will not be possible and there was active speculation. FROM 55 TO 65 POINTS

NEW YORK, Feb. 3 .- The market for coffee futures opened barely steady at a decline of 15 650 points, and, after a slight recovery around midday, ruled sensationally active and weak. The decline was started by the weakness of French cables and continued selling by importers in connection with further unloading by those who may have been influenced by the break in the cotton market and, by the report that the holdings of the local bull leader in cotton were

Shortly after midday a closing decline of a full franc at Havre imparted additional impetus to the local decline, and the market was sold down until it showed a net decline of points of the general list. This was followed by an improvement chiefly as a result of covering by sellers earlier in the day and buying that was thought to be for the account of the same importers who have been the most active sellers during the past several days. The market closed steady and net 55@65 points lower. Sales were reported of 641,750 bags, including: February at 7,20@7,35c, March at 762 7.35c, April at 7.45c, May at 7.25@7.80c, June at 7.45@7.60c, July at 7.50@7.90c, September at 7.90@ 8.20c, October at 7.9578.30c, November at 8.50c, December at 0.25@8.65c and January at 8.75c.

From the best indications it looks as if Ar- | houses which trade largely for him, Bartlettwere buyers again on the reaction of ic.

> Bradstreet's reported a decrease of 1,107,000 bushels in stocks of wheat east of the Rockies bushels the corresponding week last year. and left off only %c be- principal decreases were: Manitoba, 280,000 bushels; Northwestern interior elevators, 200,000 bush-Portland, Me. 85,000 bushels; Louisville, \$5,000 bushels; the principal increase, Chicago private elevators, 125,000 bushels. Corn stocks increased 1,757,000 bushels, compared with an increase of 1,175,000 bushels last year. Oats increased 778,000 bushels, compared with an increase of /266,000 bushels a year ago.

The grain men at Chicago evidently have the such experience this year as the cotton has been having. The sympathetic effect of the wild almost as bullish, going to 50%c, 2c higher than speculative experience in cotton on the grain man's mood has been very apparent of late. There has been a broadening interest in the corn, oats and provisions, with steadily advancing prices. The outside buyer has been the faclarge outside contingent also following Patten in his bull operations in oats. There has been advance enough in everything to be quite an inspiration to the outside specurator, who has acted upon the suggestion that Western products were to have their inning along with the Southerner's cotton. Corn is now up over 10c from the low point, and oats are up 11c. Commission people who have wires through the low point, and oats are up 11c. Commission people who have wires through the low location of the suggestion that Western products were to have their inning along with the Work; malting, 54%55c, c. i. f. Buffalo. LAST YEAR'S EARNINGS OF THE PENNSYLVANIA LINES.

Fight Between Chicago Great Western and Chicago & Northwestern May End in a General Rate War.

The December statement of earnings of the Pennsylvania Railroad Company and the complete figures for 1903 have been issued, showing that the gross earnings of the entire system increased \$18,629,800 for the year over the previous twelve months. The year 1902 was an exceptionally busy one; still, the traffic in 1903 eclipsed it. Large as was the increase in gross receipts, the increase in expenses was greater, being \$18,988,300, resulting in a decrease in net earnings for the year of \$358,500. The net earnings of the Pennsylvania for 1902 were \$37,612,258, and the decrease for 1903 is less than 1 per cent. Until the accounts are made up for the annual report it will not appear how much of the increase of expenses is due to the expenditure of earnings for improvements. It is probable that the final results will show a net income for 1903 not far from that of 1902, which was \$25,849,963, or more than 8 per cent. upon the present capitalization. For December the gross earnings show a net decrease of \$524,-000, while the net earnings decreased \$468,700 on the entire system, much of which was due to the unfavorable weather conditions.

Amicable Relations Threatened.

The grain rate war in Western territory is seriously threatening the amicable relations which have been built up among Western roads during the last two years. Considerable feeling is being shown in the matter and a disposition to let the difficulty drift to its conclusion rather than take steps to stop | headquarters at Detroit, and George W it where it is. The hostility between the Anderson, traveling passenger agent, head-Great Western and the Northwestern has | quarters at Chicago. become such that it will be hard to eliminate. It is understood that the Northwestern officials blame A. B. Stickney for the suit which has been brought against the up for a hearing within a few days. The attorney for the plaintiff is also the Great Western's attorney and Mr. Stickney's personal legal representative. The case calls in question the legality of the Northwestern's act in putting in a through rate on grain from Nebraska points which is less than the sum of the local rates. this suit is determined it is possible that the Northwestern will not make another move in the grain rate war, but if it is decided in favor of the company it is believed | Wednesday. The offices are to be in Chithat the Northwestern will again reduce the rates to Chicago.

Fighting Shippers.

The Trunk lines of the Central Freight Association territory will, it is understood, wage a fight against the Shippers' Associaa law framed which would entitle them to demurrage charges when the railroad fails to deliver freight within a specified time. The railroads have been enforcing the demurrage charges against shippers with such regularity that the larger shippers are angered, and the Ohio association has taken matters in hand and will fight for legislation that will make the railroads pay demurrage when freight is delayed.
